Gates Water Pumps now available at **A&Jay**

Water Pumps

Gates water pumps are recognized in the industry for their durability and superior quality. Every Gates water pump is constructed with premium alloy materials and a 100% functional test of seals and bearings along with a 100% leakage test for both the casting and assembled water pump. We are committed to selling the highest quality new, never re-manufactured, water pumps in the aftermarket. Our end goal is to provide our customers with worry-free operation for the life of their vehicle

Timing Belt Component Kits With Water Pump

Timing belt driven water pumps should always be replaced at the same time as the timing belt. Gates kits include the same OE components as our TCKs: timing belts, pulleys and tensioners as well as a water pump. With Gates TCKWPs, all critical system components can be replaced at the same time.
